Spatial Mapping with Tableau: Installing the Software

This handout details how to install the Tableau software. Tableau is a part of the Salesforce product suite, but it is available for **free** to .edu email accounts. Please follow the links below, you will need to input your .edu email address. You will receive a key that can be used to activate Tableau **twice**.

For Students: <https://www.tableau.com/academic/students>

For Instructors: <https://www.tableau.com/academic/teaching>

You will receive an email with links to download Tableau. Once downloaded, install Tableau as you would any other software on your operating system, then input the key provided in the email when prompted.
