

FRNH 2101: Intermediate French
Nouha Gammar
French Colonial Architecture Trail Demo

Directions: Make a copy of the [Demo Data Spreadsheet](#). Pick 2-4 locations to make slides for in a StoryMap. Images and videos are just examples, feel free to pick other images/videos online (just make sure to give credit!). As you make your sample StoryMap, try to make different design choices from the example provided (<https://bit.ly/31XUgAM>). Some examples of design choices: different basemaps, different map markers, or different images! You will have 10-15 minutes to work on these maps, while Vaishali and Yana will be available for any questions or troubleshooting.

After building 2-4 slides, pair up and discuss your maps, the process of building them, and how design choices impact the tone and purpose of the map.
