Group Discussion

In your experiences with NVivo so far, what are some of the **strengths** and **weaknesses** of the software? Have there been any **difficulties** using NVivo?

Would anyone like to share how they have been organizing their data?

Workshop Objectives

- Continue working with NVivo in class with the opportunity to ask questions
- Discuss your organization (nodes, annotations, cases, etc.) with your classmates to understand different methods of using NVivo

Your Turn

Using the data that you have been gathering, continue:

- Inputting the documents
- Creating nodes/cases
- Coding the documents
- Visualizing your codes
- Please ask questions of us, we are here to help!
