Workshop Agenda

- Learn about Timeline as a mode of conveying data and content
- Best practices and questions to consider before creating your Timeline
- Steps for using Knight Lab TimelineJS
- Start building!

Slides and handout available at <https://bit.ly/diti-fa2021-blum>

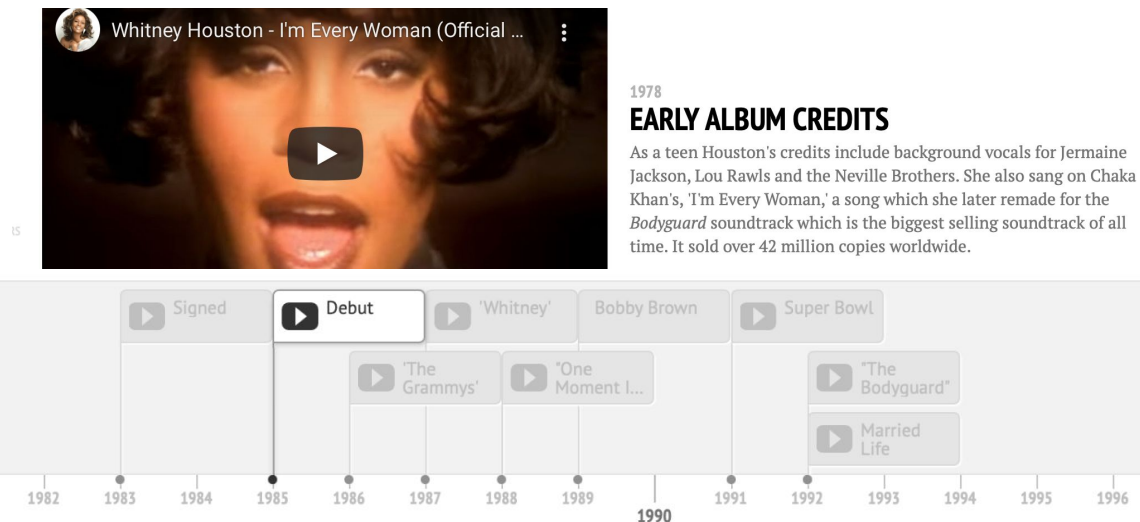

Check out the KnightLab Timeline Handout for...

- General KnightLab Timeline information
- Components of an effective timeline
- Questions to consider before building a timeline
- Timeline examples

Knight Lab TimelineJS Examples

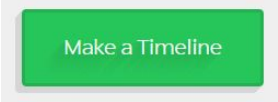

- [Whitney Houston 1963-2012](#): Telling the life of Whitney Houston through key dates and events

- [Professor Blum's example timeline](#)

Create a Timeline (step 1 on the Timeline website)

- Go to <https://timeline.knightlab.com/>
- Click “Make a Timeline” 
- You don't need an account to create a timeline
- Click "Get the spreadsheet template" and follow the instructions to copy it to your Google Drive
- The main place where you build your timeline is Google Sheets, so when you make a copy, the file will be saved in your Google Drive

Using the TimelineJS Google Sheets

Template available on their website (make a copy on your drive)

Timeline

Slides

Each slide represent a different point or period in time. Each one contains:

- **Headline** and **text**. The text box reads basic HTML.
- A **background image**/color
- **Media**: images, videos, and sound files. Only **one** media file can be uploaded per slide. Special columns in the spreadsheet are dedicated to incorporating the media onto the slide.

Dates

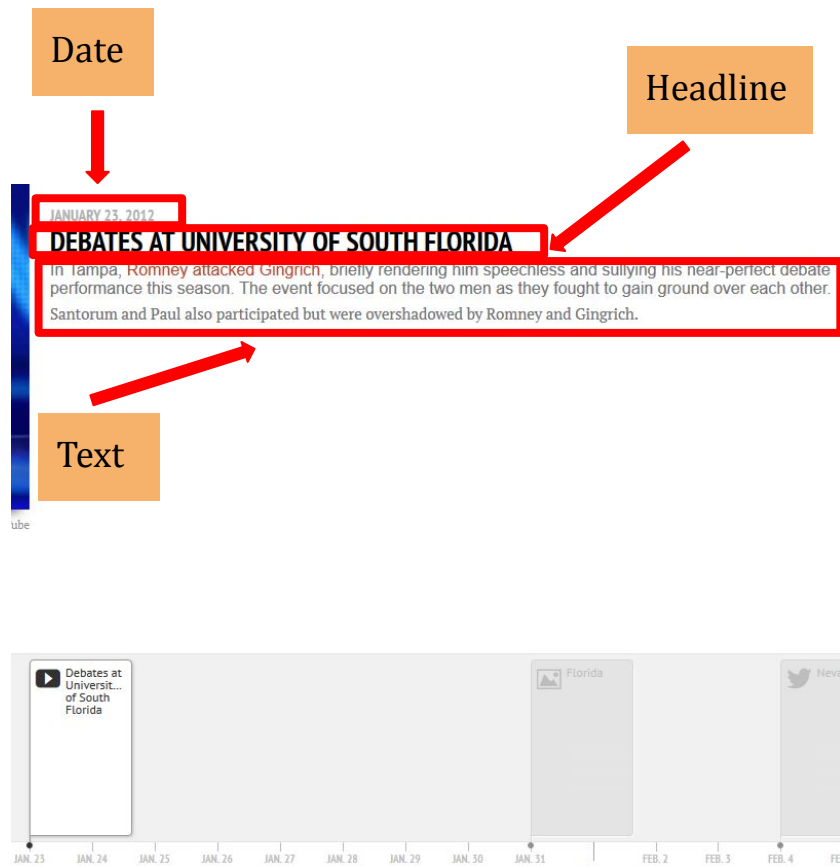

- Slides in the final timeline follow the order of the dates, not the rows
- You can choose how specific you want to make your dates, but you must enter at least the **year**
- Entering the end date is optional
- The “display date” is useful when the exact date is unknown/unknowable

A	B	C	D	E	F	G	H	I
Year	Month	Day	Time	End Year	End Month	End Day	End Time	Display Date

Adding media

- Timeline supports various online media platforms (but you **can't** upload from your computer directly)
- Go to the “[Supported Media Types](#)” list on the KnightLab TimelineJS site to find more information on file types and embedding

Media	Media Credit	Media Caption	Media Thumbnail
		Chicago by zach.wise	
http://www.flickr.com/photos/zachwise/6115056146/	Zach Wise/verite.co	Chicago to NYC

<div>Using <iframe></div>			
<div>looking at iframe example</div>			

Adding media

- **Markup language** (used for writing the content of web pages) can be used to import the media that is not supported by by TimelineJS
 - This is done by adding **<iframe>** instead of the URL in the column L: you can find the model for entry [here](#)
 - You can also use **<blockquote>** markup in the same column to add text next to your media: you can find the model for entry [here](#)
- In the example to the right, markup language is used to turn the media caption into hyperlink

Timeline Types: *Title vs. Era*

The **Type** column (P) can be used to activate a few more specialized features in Timeline.

- If you use the word **title** in this column, then Timeline will use the row as a "title slide," which is shown before all others, and which does not require a date.
- If you use the word **era** in this column, then Timeline will use the row to label a span of time in the "axis" area of the timeline navigation component. Eras should have start and end dates (at least the year for each) and a headline.

Media Credit	Media Caption	Media Thumbnail	Type	Group
Zach Wise/verite.co	http://www.flickr.com/photos/zachwise/6115056146/ title="Chicago by zach.wise, on Flickr">Chicago by zach.wise		title	
Zach Wise/verite.co	Chicago to NYC		title	
Knight Lab	A video about how to make timelines!		era	

Groups

- 'Group' - text entered in this column acts as a subheading for moments that you want grouped together
- Moments in the same group will appear in their corresponding row at the bottom of the timeline

Type	Group	Background
title		
	contemporary	#333333
title	contemporary	https://upload.wikim
era	historical	

Background

You can customize your background with a color or an image.

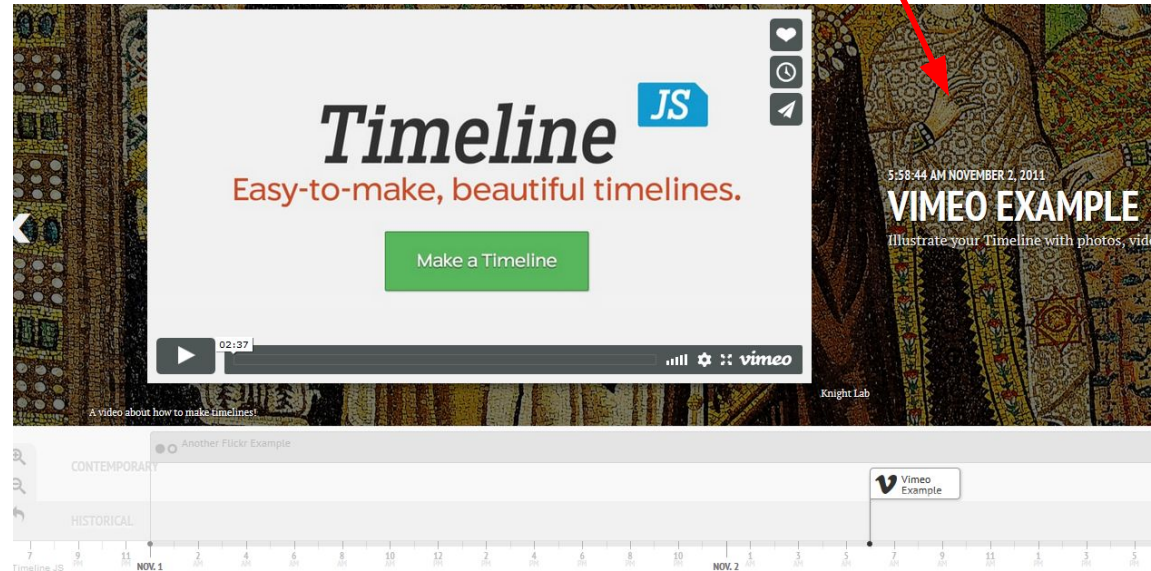

You enter a color by its **hex code** (#333333 in the example on the right).

You can Google a color name, or browse [here](#).

Uploading the spreadsheet (step 2 on the Timeline website)

- In the spreadsheet, select the "Publish to the web" option under "File"
- In the settings box that pops up, check "Automatically republish when changes are made," select "od1" under "Entire document" drop down box, then click "Publish"
- Copy the Page URL (**not** the Publish URL) into the Timeline website <https://timeline.knightlab.com/#make:>

Share your timeline

Share Link

Use this to link directly to your timeline.

If you're embedding on Medium.com or other oembed-aware services, just paste this link on a line by itself where you want your timeline to appear.

```
https://cdn.knightlab.com/libs/timeline/latest/embed/?source=1cWqQBZCkX9GpzFtxCwHqoFXCHg-y1TVUWlnrdYMzKUI&font=Bevan-PotanoSans&mapttype=toner&width=600&height=600
```

Embed

Copy this embed code and paste it on your site where you want your timeline to appear (just like a YouTube video).

```
<iframe src='https://cdn.knightlab.com/libs/timeline/latest/embed/?source=1cWqQBZCkX9GpzFtxCwHqoFXCHg-y1TVUWlnrdYMzKUI&font=Bevan-PotanoSans&mapttype=toner&id=1cWqQBZCkX9GpzFtxCwHqoFXCHg-y1TVUWlnrdYMzKUI&title=Timeline of the 2008-2009 US Presidential Election' width=600 height=600 frameborder=1'></iframe>

Discussion

What do you think of this tool? Do you find it accessible?

Are there any features you think you will need help with?

Do you find timeline useful? What for?

What type of information, stories, and narration are especially compatible with the timeline format?

What do you see yourself using it for?

Thank you!
